Maulik Pandey Computer Science Student

maulik.pandey9@gmail.com | Greater Noida, India | /maulp | @m4ulikP | Portfolio

Summary

I am a **Computer Science undergraduate** with keen interest in **software engineering** and **Artificial Intelligence/Machine Learning**. I am currently building a strong base in **data structures**, **web development**, and **problem solving**. I have a strong passion for building projects that can be used in the real world and improving my technical abilities.

Skills

- Python ●●●○○
- C++ ●●●○○
- Git & GitHub ●●●●○
- JavaScript & TS (Learning) ●●○○○

Languages

- English
- Hindi

Professional Experience

Backend AI Engineer Intern
FlyRank AI
07/2026 – 08/2026

- **Idempotent Event Ingestion:** Designed header-based request deduplication using XIdempotency-Key, preventing duplicate charge events across network replays and client retries.
- **Usage Quota Enforcement:** Implemented monthly quota enforcement across Free and Pro tiers, tracking API invocations and token volume with immediate HTTP 429 threshold responses.
- **Integer-Cent Precision:** Standardized token and request pricing models on integer-cent arithmetic to eliminate floating-point rounding discrepancies.
- **Webhook Reconciliation:** Built Stripe webhook verification and background reconciliation workers to synchronize subscription states with PostgreSQL.

Tech: Node.js · TypeScript · PostgreSQL · Vitest · Docker

Education

Senior Secondary (Class XII)
Sarvottam International School
2024 – 2025 | Greater Noida, India

Secondary (Class X)
Sarvottam International School
2022 – 2023 | Greater Noida, India

Bachelor of Technology (B.Tech) in Computer Science
IILM University
2025 – Present | Greater Noida, India

Certificates

- 5-Day AI Agents Intensive Course with Google
- Supervised Machine Learning: Regression and Classification
